JEROME LADANAN

Graphic Designer | UI/UX Designer | Software Engineer

ladanan.jeromehal@gmail.com | saelthorn.github.io/portfolio | Cagayan de Oro City, Philippines

PROFILE SUMMARY

Self-taught developer and designer delivering full-stack projects from concept through release. Authored 10,000+ lines of production code and completed freelance design work for multiple clients. Built a Unity game mod with 6,000+ downloads and combined technical accuracy with production-ready visual execution.

SKILLS

Design & Creative: Figma | Canva | CapCut | Graphic Design | UI/UX Design | Video Editing | User-Centered Design Thinking

Development & Engineering: Python | JavaScript | HTML & CSS | SQL | Unity | Git & Version Control | Game Development

Professional: Problem-Solving | Critical Thinking | Attention to Detail | Time Management | Team Collaboration

EXPERIENCE

GAME MOD DEVELOPER (LEVEL DESIGN)

Feb 2026 — Present

Team Project — The Elder Scrolls II: Daggerfall Unity

- Designed and overhauled 7+ interior and exterior environments in Unity, improving spatial flow, navigation, and visual consistency
- Contributed to a mod that reached 6000+ downloads on Nexus Mods, collaborating with a 4-member team to enhance world design
- Built level layouts focused on player immersion and environmental storytelling while preserving the original game's aesthetic
- Implemented assets and scene compositions in Unity, optimizing scaling, lighting, and performance across all environments

UX/UI DESIGNER

Nov 2024 — Jan 2025

Personal Project — UKAYED

- Designed a concept e-commerce app and website for secondhand clothing in Figma, covering end-to-end user experience from discovery to checkout
- Developed full design documentation including wireframes, user flows, and interactive prototypes for both mobile and desktop
- Applied user-centered design principles to reflect the local ukay-ukay shopping experience, creating an intuitive and culturally grounded interface
- Gathered informal user feedback from peers, iterating on layouts and interactions to improve usability and visual clarity

GAME DEVELOPER

July 2025 — Present

Personal Project — Mithrim

- Designed and developed a solo DnD 5e-inspired roguelike in Python and Pygame, building 10+ core mechanics including turn-based combat, enemy AI, and procedural progression
- Authored 10,000+ lines of production code across 35+ modules, implementing combat systems, inventory management, procedural generation, enemy AI, and game state architecture from scratch
- Designed and implemented 100+ unique game entities, including playable races, monsters, NPCs, and interactive objects, while independently creating all original pixel art assets and UI elements to maintain a cohesive visual identity
- Managed the full development lifecycle solo, from concept and architecture to playtesting, balancing, and final polish

VIDEO EDITOR

Apr 2025 — June 2025

Employed

- Edited 14 short-form videos across Instagram Reels, TikTok, and YouTube Shorts for 4 clients, optimizing cuts and pacing for engagement and retention
- Executed full post-production workflows in CapCut including transitions, audio syncing, color correction, and motion graphics
- Delivered on-time across multiple revision cycles, maintaining consistent turnaround with zero missed deadlines
- Managed all project timelines independently, handling client communication and feedback end-to-end

GRAPHIC DESIGNER

Jul 2024 — June 2025

Freelance

- Delivered 14 design projects across social media graphics, posters, business cards, and brand kits for 3 freelance clients
- Developed cohesive brand identities using Figma and Canva, applying color theory, typography, and visual hierarchy principles
- Maintained consistency across digital and print formats, ensuring assets deployed correctly across multiple platforms
- Managed concurrent projects independently, meeting all deadlines while adapting to evolving client requirements

EDUCATION

Bachelor of Science in Computer Science
University of Science and Technology of Southern Philippines (USTP)
2022 — Present

TVL — Programming
Informatics Computer Institute
2019 — 2021
Senior Graduate
